Award Specific Criteria (cont.)

* **Expert practice** is exemplified by most or all the following criteria:

1. **Standard 1** The critical care nurse uses advanced skills and specialized knowledge to continuously assess, monitor, and manage patients for the promotion of optimal physiological balance.
 - a. Effective clinical decision making supported by thorough assessments;
 - b. Able to anticipate risks and changes in patient condition and intervene in a timely manner;
 - c. Sequences and manages rapid multiple therapies in response to a crisis.
2. **Standard 2** The critical care nurse promotes and facilitates optimal comfort and well-being in a highly technological environment that is often unfamiliar to patients and families.
3. **Standard 3** The critical care nurse fosters mutually beneficial partnerships with patients and families, as defined by the patient, based on trust, dignity, respect, communication, and collaboration.
4. **Standard 4** Critical care nurses provide care that adheres to evidence-informed guidelines and established safety standards and protocols when providing care in a high-risk environment.
 - a. Provides high quality patient care based on experience and evidence;
 - b. Has developed a clinical knowledge base and readily integrates change and new learning to practice.
5. **Standard 5** When the goal of care changes from life-sustaining therapies to end-of-life, the critical care nurse supports patients and families through this transition.
 - a. Provides education, support and comfort to patients and their families to help them cope with the trajectory of illness and injury, to recovery, palliation, or death.
6. **Standard 6** The critical care nurse promotes collaborative practice in which the contribution of the patient, family and each interprofessional team member is solicited, acknowledged, and valued.
 - a. Integrates and coordinates daily patient care with other team members;
 - b. Advocates, and develops a plan of care that consistently considers the patient and family and ensures they receive the best care possible;
 - c. Role models collaborative team skills within the inter-professional health care team.
7. **Standard 7** The critical care nurse provides leadership by fostering a culture conducive to collaboration, quality improvement, safety, professional growth, well-being, and responsible resource utilization.
 - a. Participates in quality improvement and risk management to ensure a safe patient care environment;
 - b. Acts as a change agent to improve the quality of patient care when required;
 - c. Assumes a leadership role as dictated by the dynamically changing needs of the unit;
 - d. Is a role model to new staff and students;
 - e. Shares clinical wisdom as a preceptor to new staff and students;
 - f. Regularly participates in continuing education and professional development.

Award Submission Process

1. Two letters of support for the nominee must be provided:
 - a. One letter of support must be written by an active CACCN member, in good standing;
 - b. One letter of support must be written by a supervisor, unit manager, team leader, clinical educator or physician partner.
2. The nomination letters must **each describe a minimum of three** examples showing:
 - a. how the nominee has met the award criteria;
 - b. outlining the nominee's clinical excellence and expertise;
 - c. The nomination letters may contain some of the same examples, however, cannot be identical in submission.
3. Online submission at www.caccn.ca.
4. Incomplete nomination packages and packages received after the deadline will not be considered.

Selection Process

1. Each nomination will be reviewed and scored by an Awards Review Committee consisting of no less than three (3) and no more than five (5) active CACCN members;
2. The successful nominee will be notified by the Partner Relations Chair via email and/or regular mail;
3. The successful nominee will be recognized at the Awards Ceremony at the Dynamics of Critical Care™ Conference (annually in September);
