CARE
NURSES

continulus

Continulus offers an amazing array of topics, world-class speakers and you have the ability to watch or listen at your convenience. It is a great way to learn something new, review and earn continuous learning credits. Whether you work in the rural north or a major urban center there is something for everyone. CACCN is thrilled to be able to offer our members this added membership benefit.

Sarah Crowe, Vice-President, CACCN

ARE YOU READY TO REGISTER??

www.continulus.com/CACCN OR www.continulus.com/register

- Enter your **first name/last name**
- Enter your **email address**
- Select **occupation** (Nurse) from the dropdown menu
- Select **specialty** (Intensive Care Medicine) from the dropdown menu
- Enter **nursing registration number** - if not available enter 'xxx'
- Click **already a member of organization**
- Select **Canadian Association of Critical care Nurses**
- Enter your **CACCN-registered email** in the box **Unique Member Code**
- Choose your country **Canada**
- Choose a **password** (min 10 characters) and confirm **password**
- Check the box to receive Continulus newsletter and offers - recommended, and can be cancelled later if needed
- Click to **Create Account**
- When you receive a green confirmation message the registration has been processed. **An automated email will be sent. You will need to click the link within the email to authenticate your account.** If the email does not appear in your inbox within a few minutes of registering, please check your spam file.
- If you have issues, please contact info@continulus.com and we will manually authenticate your account for you.

PUBLISHED ARTICLES

1. How knowledge translation is improving during the COVID-19 pandemic.
2. Maintenance of clinical competencies with in-situ nursing simulation.
3. Validation of the French-Canadian version of the Nursing Activities Score.
4. Intensive Care Nursing providing end-of-life care in a community hospital.

Editorial

The Canadian Journal of Critical Care Nursing, 31(3), 5

To our Canadian Association of Critical Care Nurses Members and *Canadian Journal of Critical Care Nursing*® Readership,

Over the past year, the editorial team in collaboration with the editorial review board and the national board of directors of the Canadian Association of Critical Care Nurses (CACCN), have had many conversations regarding the *Canadian Journal of Critical Care Nursing*® (CJCCN). Our aim has been to ensure that the CJCCN continues to be a major vehicle for critical care nursing scholarship and knowledge dissemination in Canada and internationally. We have engaged in several transition initiatives to achieve this aim.

First, in 2021, the CJCCN will be launching a stand-alone website. The website will feature current and archived publications. The website will also be the primary home for all information pertinent to the CJCCN including updated information specific to publication in the journal (i.e., Guidelines for Authors), as well as our policies and procedures from manuscript submission and peer review through to publication. CACCN members will receive access to the CJCCN website and all journal issues freely through continued membership. The website will feature

advertising opportunities and will provide a mechanism for subscription, as well as acquiring access to manuscripts for those who are not members of the association.

Second, following the conclusion of the 2020 publication year, all future publications of the CJCCN will be electronic. For a variety of reasons, the editorial team, in collaboration with the national board of directors, has decided that we will no longer provide the journal in print format. While there may be some exceptions where print is available (i.e., for archival purposes, fulfilling pre-existing agreements and organizational subscribers), moving forward in 2021, CACCN members and CJCCN readers will be provided with electronic access via the new CJCCN website.

Finally, as we continue to move forward in meeting our aim of producing a high-quality, critical care nursing journal, we anticipate that there will be other transitions forthcoming. The continued success and impact of the CJCCN is essential not only in Canada, but internationally as well. As the Chief Editor of the CJCCN, I am excited to see what the future will bring!

Dr. Brandi Vanderspank-Wright, PhD, RN, CNCC(C)
Chief Editor, Canadian Journal of Critical Care Nursing

WCICC 2021

CANADIAN
NURSES
ASSOCIATION

CERTIFY IN OUR SPECIALTY

New requirements: Canadian Nurses Association.

CNA wants certification to be more accessible to nurses while maintaining established high quality and credibility. Eligibility specialty experience hours required for nurses to apply for certification **will be reduced.**

Two Options available:

1. **1,950 hours** of experience in your nursing specialty within the last five years (formerly 3,900 hours).
2. **1,000 hours of experience** in your nursing specialty within the last five years **plus 300 hours of formal education**, (as opposed to the former 2,925 hours of specialty experience plus education).

For more details, see the application process:
