Critical Care Review Course

beginning September 1.

Instructor:

Brenda Lynn Morgan MSc RN CNCC(C)

Although registration by September 1 provides the longest access, registrations will be accepted until October 15, 2022.

A discounted rate for members of the Canadian Association of Critical Care Nurses (new and continued members) is available.

This course is timed to the Spring 2023 examination.

Website Course Information: [Critical Care Concepts London Canada](#)

Program Flyer and Schedule: [FallWinter 2022_2023 Final.pdf](#) - ([criticalcareconcepts.ca](#))

Online Registration: [Critical Care Nursing Review: September 1, 2022, to May 31, 2023, Survey](#) ([surveymonkey.com](#))

CACCN Member Fee = \$259.90

(\$230.00 plus \$29.90 HST)

For individuals seeking a course to help prepare for the November item writing dates, please contact Brenda L Morgan at critcareconcepts@rogers.com

Health Canada Public Consultation: Exceptions to the Prescription Drug List

Health Canada has launched an initial consultation to gather input from health care providers, industry, and other stakeholders about exceptions to the Prescription Drug List. Exceptions are intended for when a drug meets one or more of the prescription drug principles and factors, but a health and safety rationale for easier access outweighs the benefits of the prescription requirements.

This consultation will close on November 29, 2022.

You can access the consultation here:

<https://www.canada.ca/en/health-canada/programs/consultation-exceptions-prescription-druglist>.

Santé Canada – Consultation publique : Exceptions à la Liste des drogues sur ordonnance

Santé Canada a lancé une consultation initiale pour recueillir les commentaires des prestataires de soins de santé, de l'industrie et d'autres intervenants au sujet des exceptions à la Liste des drogues sur ordonnance. Les exceptions sont prévues lorsqu'un ou plusieurs des principes et facteurs liés aux drogues sur ordonnance s'appliquent à une drogue, mais qu'une justification de santé et d'innocuité pour l'accès plus facile dépasse les avantages relatifs à la vente sur ordonnance. La consultation se terminera le 29 novembre 2022.

Vous pouvez accéder à la consultation ici :

<https://www.canada.ca/fr/sante-canada/programmes/consultation-exceptions-liste-droguesordonnance>.

Safe patient handling program

Presented by Susan Salisbury, BS,
OTR/L, CDMS, CSPHP

Many healthcare professionals are familiar with safe patient handling and mobility (SPHM) concepts and the need for such techniques to help reduce the risk of caregiver injury. Knowing SPHM principles and acting on them are two very different things. This webinar will lay out the methodology for the development of a comprehensive SPHM program and provide actionable information to help you implement these strategies within your healthcare setting.

Objectives:

1. Identify elements of a comprehensive safe patient handling and mobility program
2. Identify resources to implement and sustain a safe patient handling and mobility program
3. Identify the relationship between early mobility, safe patient handling, fall prevention and pressure injury prevention

Tuesday, August 16

Canada Funds Projects to Address PTSD in Healthcare Workers

Two McMaster University researchers working on projects that address pandemic-associated posttraumatic stress disorder (PTSD) among healthcare workers have received more than \$4.5 million in Canadian federal funding.

The projects include a website with evidence-based resources and a smartphone app that encourages early intervention and peer support. Together, the projects are expected to reach more than 100,000 healthcare workers across Canada. **Read more:** [Medscape](#)

Register today! Webinar: September 8 Registration

(<https://www.xcdsystem.com/caccn/forms/index.cfm?ID=KIBaQtY>)

Share this information with your colleagues!

Anyone may attend the live webinar. Only CACCN members will have access to the recording.

Registration is open until September 6, 2022, at 23:59 hrs ET.

Zoom link will be emailed to registered participants on September 7 and September 8.

SURVEY

Help inform **CNA's** advocacy work by answering our quick advocacy survey CNA is developing recommendations for the federal government's 2023 budget. The purpose of this survey is to gather nurses' input to help inform our advocacy strategies and our recommendations to the federal government to ensure that they reflect the voice of the nursing profession. The survey takes less than 7 minutes!

The Canadian Journal of Critical Care Nursing

Volume 33, Number 2, Fall 2022 of the *Canadian Journal of Critical Care Nursing™ (CJCCN)* will be published this month!

Watch for your notification email and visit <https://cjccn.ca/> to access the journal.

This issue includes three excellent articles:

1. The experiences and perceptions of organ and tissue donation coordinators participating in a team cohesion and communication workshop: An exploratory descriptive qualitative study.
2. Canadian intensive care nurses' infection prevention and control adherence and institutional trust: An update 1-year into the pandemic.
3. "We were treading water." Experiences of healthcare providers in Canadian ICUs during COVID-19 visitor restrictions: A qualitative descriptive study.
