CACCN / CCCN JOINT WEBINAR

Recognizing and Managing Abnormally Slow Cardiac Rhythms: Enhancing Nurses' Clinical Assessment Toolkit

Hearing the triple alarm on the cardiac monitor gets everyone's attention. It is the assessment of the patient and the culprit rhythm that needs immediate review. This presentation will help learners identify the abnormally slow rhythms that can occur as a result of sinus node dysfunction and atrioventricular conduction disease. As well review the therapeutic interventions for these electrical disturbances.

Speaker: Nancy Clark
