My two years term is coming to an end soon and I feel like I'm just starting to understand / getting comfortable with my role as a BOD. With the association transitioning soon I'm hoping to continue the work were doing and accompany the members in what will be next for the association. I'm hoping to continue bringing new ideas to attract more members and share the association vision.

## **Personal Statement**

I'm Gabrielle DeGrace, I'm from a small village named Petit-Rocher in New-Brunswick.

I obtained my Bachelor of Science in Nursing at the Université de Moncton in May 2019. I've been a Registered Nurse since then. I worked a year and a half in pediatrics before transitioning to Critical Care in the fall of 2021. I completed my Critical Care Nursing Course in 2021 and have been working in the ICU ever since. I'm a CNA Critical Care certified since May 2025.

As a Director I hope to continue sharing the values and vision the association has for critical care nurses, I hope to bring new innovations and ideas to help advance our practice.

As a bed side nurse still, I might be more relatable to some of our members that are also still directly in the field. I believe I'm a good team player, I'm reliable, I'm creative and I already have 2 years experience as a BOD.
